# ZUMA® Task Seating

Because seat height adjustability is such an important ergonomic factor, the ZUMA® line includes three adjustable task chair models to accommodate a wider range of students.

For lab classes, reference desks or related applications requiring high-range adjustability, the ZUMA lab stool – which includes an adjustable-height seat and footring – is a perfect choice. By contrast, the ZTASK15 has a reduced seat size and a shorter adjustment range that’s ideal for many elementary and intermediate school kids, as well as smaller students in upper grades. The ZTASK18 is great for high schools - and for adults at all schools - where task seating is preferred.

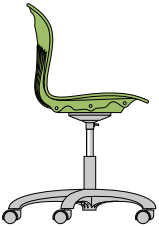

## Mobile Chair Applications

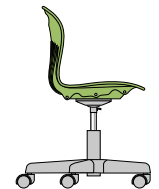

### ZLAB

With a 19½” to 27” seat-height adjustment range, the ZUMA lab stool is great for science labs, art rooms, library reference area or anywhere there’s an elevated work surface

### ZTASK18

The ZUMA “Keyboarder” features a 16” to 20½” seat height range that provides excellent solutions in computer classrooms, technology labs and related learning environments.

### ZTASK15

A smaller chair shell and a 14” to 17” seat-height adjustment range make the ZUMA “Junior Keyboarder” ideal for many intermediate school students as well as selected high school students.

### ZLAB

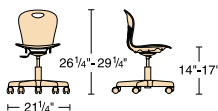

This lab stool with an adjustable seat and footring works ideally in science labs, reference areas, art rooms or anywhere there’s an elevated work surface.

**ZTASK15**

With a compact seat and shorter adjustment range, ZUMA's "Junior Keyboarder" provides effective support for smaller students.

**Mobile Chair Options**

**Soft Casters - U9024CAST**

An optional 5-pack of soft casters is available for models ZLAB, ZTASK18, and ZTASK15.

COLOR: Char Black

**Fixed Glides - UGLIDE**

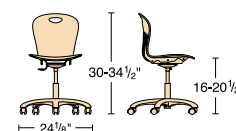

An optional 5-pack of fixed glides is available for models ZLAB, ZTASK18, and ZTASK15.

COLOR: Char Black

**ZTASK18**

For bigger kids – as well as adults – the full-size ZUMA® "Keyboarder" is a great adjustable seating choice.

**Task Chair and Lab Stool Colors**

Available in all related Standard and Designer colors.

**MOBILE 5-STAR BASE**

Char Black BLK01 Silver Mist GRY02

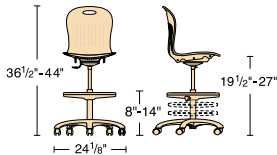

**SOFT PLASTIC SEAT**

**SGLAB**

This extra-comfortable Sage lab stool with a 19½" to 27" seat-height range and an adjustable footing is ideal for library reference areas, art rooms, science labs or anywhere your campus has elevated work surfaces.

An optional 5-pack of soft casters is available for models SGLAB and SGTASK18.

COLOR: Char Black

**Fixed Glides - UGLIDE**

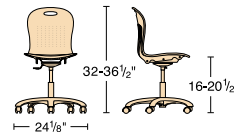

An optional 5-pack of fixed glides is available for models SGLAB and SGTASK18.

COLOR: Char Black

**SGTASK18**

For a comfortably sculpted task chair with a generously proportioned shell, Virco's new Sage Series features this great looking model.

**Sage Colors**

**FRAME FINISH**

SGCANT models are only available with a Chrome or Silver Mist frame.

SGCANT model glides are Graphite only.

SGTASK18 and SGLAB are available with Char Black or Silver Mist 5-star base.

**SOFT PLASTIC SEAT AND GLIDES**

# I.Q.® Series Mobile Seating

For technology-based venues, the I.Q.® line features three versatile mobile chairs. Equipped with a flexible, supportive shell, our standard I.Q. task chair offers the easy mobility of a 5-point base and the convenience of pneumatic seat height adjustment. To accommodate younger, smaller students, another I.Q. model comes with a smaller shell and a reduced seat height adjustment range. There's also an I.Q. lab stool with an adjustable-height seat and footring.

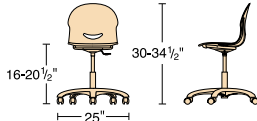

**266015GC**

14 1/4" to 17" seat height.

**266017GC**

16" to 20 1/2" seat height.

## Mobile Lab Stools

With their extended seat-height ranges and supportive footrings, Virco lab stools provide effective furniture solutions for art rooms, library reference areas, science labs or anywhere there's an elevated work surface.

The best-selling ZUMA® Series features a lab stool with comfortable ergonomic contours, as do our new Metaphor® and Telos™ collections and the I.Q.® product line. Other Virco lab stools are available with a Martest 21® hard plastic seat and back, or with a Classic Series™ shell configuration. We even have a padded, upholstered 4600 Series model to meet your seating needs.
