

# 4000 Series Activity Tables

Versatile 4000 Series activity tables are at your service with 25 different standard-leg models. At home in classrooms, training rooms, workrooms and mail-rooms, these tables are especially great for cooperative learning environments. Selected models, like the 48KID72 shown on the next page, have a seating area that's particularly appropriate for use by an instructor.

Sturdy 1½" thick table tops feature a Fusion Maple, Medium Oak, Walnut or Grey Nebula high-pressure laminate finish. Table edges are cushioned with protective T-mold banding. Standard tubular steel legs let you adjust top height from 22" to 30" in one-inch increments. Optional leg models and accessories are also available.

**4842RCHRM**

Table shown with optional fully-chromed legs.

**Model Top Size**

482436	24" x 36"	
482448	24" x 48"

Lower legs are Chrome.

Not all leg styles are available in all colors. See 4000 Series Options on next page for more information on leg styles and colors.

For information on select 4000 Series models in the Primary Collection® of preschool furniture see page 138.

See page 278 for information on select wheelchair accessible tables.

## 4000 Series Activity Tables for All Environments

This 4000 Series station is great for small groups that need lots of space. For example, two trapezoid tables can be readily positioned to provide six students with a generous work area. To form this station you'll need two model 48TRAP84 tables and two tie plates (model UGANG).

Virco's model 48KID72 kidney table (above) brings teachers and students closer together for enhanced collaborative learning. Round and clover shaped tables also facilitate group activities.

Tote tray with tote tray runners (UTOTE)

Book box (UBOOK)

With 12 rectangular table models, the 4000 Series accommodates a complete spectrum of applications. Book boxes and tote trays deliver added functionality.

### 4000 Series Options

#### 4000 Series Standard Leg and Leg Options

There are a number of leg features and color options for 4000 Series tables. All adjustable legs have Chrome lower legs.

#### A Standard Legs

Tables come with standard legs unless one of the leg options listed below is selected. Leg adjusts from 22" to 30" in one-inch increments. Available in Char Black or Silver Mist upper leg.

#### B Chrome Adjustable Legs - CHRM

Fully chromed adjustable legs offer top height adjustment from 22" to 30" in one-inch increments. To specify Chrome adjustable legs, add "CHRM" to the model number of the tables you wish to order.

#### C Chrome Non-Adjustable Legs - N

These fully chromed legs are ideal for those who want a fixed table top height of 30". To specify Chrome non-adjustable legs, add "N" to the model number of the tables you wish to order.

#### D Adjustable Short Legs - LO

When your applications call for a particularly low work surface height, these optional legs provide an excellent solution. They adjust top height from 17" to 25" in one-inch increments. To specify short legs, add "LO" to the model number of the tables you wish to order. Available with Char Black or Silver Mist upper leg.

#### E Short Adjustable All-Chrome Legs - LOCHRM

Fully chromed short adjustable legs offer top height adjustment from 17" to 25" in one-inch increments. To specify short Chrome adjustable legs, add "LOCHRM" to the model number of the tables you wish to order.

#### F Wheelchair-Height Legs - W

For wheelchair applications, these legs adjust top height from 26" to 34" in one-inch increments. To specify wheelchair-height legs, add "W" to the model number of the tables you wish to order. Available with Char Black or Silver Mist upper leg.

Dotted lines on table tops (page 88) indicate optional book box or tote tray compatibility.

#### Book Box - UBOOK

If you choose to use 4000 Series tables as classroom desks, book boxes give your students a handy compartment for textbooks and other study aids. Dimensions are 15" wide x 14" deep x 4 1/2" high. Book boxes have a Char Black finish.

#### Tote Tray - UTOTE

Tote trays provide convenient storage space for a variety of items. They're constructed of high-impact plastic and can be mounted beneath the work surface on optional metal runners. Dimensions are 12"W x 16"D x 4"H. Sturdy metal runners are easily mounted beneath the work surface, giving you quick access to optional tote trays. Tote trays and tote tray runners have a Char Black finish.

#### Tie Plate Pack - UGANG

Tie plates provide firm, semi-permanent connections between adjoining tables or shelves. Each pack contains 2 steel tie plates and 12 screws.

## TEXT™ Series Tables

If you ask educators and administrators, it's clear they prefer furniture that balances price, performance and style. They'll also tell you this balance has proved hard to find in classroom tables.

But now there's a new Virco furniture line that gives public and private schools, as well as colleges and universities, just what they've been looking for. TEXT™ gets the message!

Designed by the award-winning team of Peter Glass and Bob Mills, TEXT tables combine elliptical legs, swooping yokes and arched feet for contract-level elegance with heavy-gauge tubular steel and proven Virco construction for extended product life. Intelligently conceived features and accessories enable TEXT to deliver perfectly balanced furniture solutions for public schools, private schools, colleges and universities.

As a complement to their outstanding design attributes, all TEXT models are GREENGUARD® certified for indoor air quality.

TEXT tables can be ordered with 20", 24", 30" and 36" work surface widths. Options include: a spacious book box; an open-view book basket that's available with or without a handy paper/pencil tray; a backpack hanger; smartly detailed grommets with a flush-closing cover and wire pass-through openings at each end; and stylish perforated steel modesty panels. TEXT tables accommodate many of Virco's popular wire management and computing accessories; in fact, selected TEXT models for technology-based settings come with post-formed table

edges, two TEXT grommets, a TEXT modesty panel and two handy wire management trays.

With TEXT, educational institutions now have a vastly improved selection of tables for their classrooms and other learning environments. By uniting the elegance of contract furniture with the proven durability and performance of Virco-engineered products, TEXT affordably embodies a new level of excellence.

Adjustable-height tables have a top range of 26"-34".

Fixed-height tables have a top height of 30".

Vertical support column prevents sagging on 48" and wider tops.

See page 278 for information on select wheelchair accessible models.

**TEXT™ Series Seminar Tables**

Ideal for taller users because their elevated crossbrace provides more knee room beneath the work surface, TEXT™ seminar tables can be equipped with grommets for technology support and casters for mobility. The 20" top width of TEXT seminar tables gives them a narrower, space-saving footprint when compared to tables with wider tops.

Model TS20727Y30GR2, which includes two grommets, with optional twin-wheeled casters (TLCASTER) and an optional modesty panel (TMOD72).

For information on TEXT accessories see page 95.

Seminar tables have single-post legs.

All models above (except 20" x 36" models) are available with two grommets – add GR2 to the model number. 20" x 36" models are available with one grommet – add GR1 to the model number.

**TEXT™ Series Tilt-Top Tables**

For selected classrooms, multi-purpose spaces and other on-campus locations that require variable furniture set-ups, the TEXT Series offers you an array of tilt-top table choices. Work surfaces fold vertically for space-saving storage; casters are standard for easier mobility. Please note that two people are required to fold and unfold all TEXT tilt-top models.

Tilt-top tables have single-post legs.

Model TE30728DADJGR2, which includes two grommets.

## TEXT™ Series Classroom Tables

Whether your school needs tables for traditional classrooms, technology-based environments or combined-use applications, TEXT™ gives you lots of work surface and optional accessory choices. Top sizes range from 20" x 48" to 36" x 72" with a 7/8" or 1 1/8" thick high-pressure laminate construction. See page 95 for all the computing, storage and other accessories that work with TEXT tables.

### Grommet - GR1 and GR2

With convenient wire pass-through openings at each end, smartly detailed optional TEXT grommets include a flush-closing cover that rotates 180° around a steel hinge pin to lie flat in both its fully opened and closed positions. Selected TEXT table models can be ordered with one grommet (add GR1 to the model number) or two grommets (add GR2 to the model number).

### Mini Power/Data Port - TUPD

Installed directly in the work surface for quick technology support with a sleek, professional appearance, Virco's new mini power/data port has a convenient, one-touch retractable lid enabling easy access to two power outlets. Available in four attractive colors, the unit has a 72" power cord with a grounded three-prong plug, as well as two power and data adapters; however, due to the wide range of potential applications, customers must provide their own specific power and data jacks.

20" and 24" deep tables have single-post legs.

30" and 36" deep tables have double-post legs.

## Lunada® Tables

With 20 top sizes, optional grommets and stylish, die-cast aluminum bi-point feet, Lunada® tables give you lots of excellent choices for classrooms and seminar settings. Because work surface widths range from 22" to 36" – while lengths start at 48" and go up to 96" – it's easy to find two-person or four-person top configurations that work in many different learning environments. Larger Lunada models also make great conference tables that comfortably accommodate six people.

For an extra aesthetic accent, Lunada tables come with attractively oversized adjustable glides. And practically speaking, the glides permit Lunada tables to be leveled on uneven floors.

### Classroom

Lunada tables are great for classrooms and offices.

### Meeting Room

This 36" x 72" racetrack table will comfortably accommodate 6 seats.

### Lecture Hall

22" deep tables are the right size for lecture style environments.

### Power and Data Management

Add grommets or pop-up power/data units for technology related environments.

### Dockable Mobile Table

All of Virco's new Technology Instructors' Desk models have an innovative 26" x 30" mobile table. With a 29 1/2" to 46" top height adjustment range and a 225-pound load capacity, the mobile table can serve as a teaching lectern that holds a laptop, a document camera or other equipment, enabling instructors to move as far into the classroom as electrical and USB cables would allow. The mobile table's height-adjustment crank can be removed and stored out of sight when not in use. Selected models include a docking station for positioning the mobile table next to the desk.

### 56MP1622

An optional mobile pedestal provides Technology Instructors' Desks with extra storage capabilities. The pedestal has a generously sized file drawer and two box drawers.

### Desk and Mobile Pedestal Colors
